

Preferred by Nature OÜ hereby confirms that
the Chain of Custody system of

Faber-Castell AG

Nürnberg Str. 2
Stein, 90546
Germany

has been assessed and certified as meeting the requirements of
FSC-STD-40-003 V2-1; FSC-STD-40-004 V3-1; FSC-STD-50-001 V2-0

The certificate is valid from 19 October 2022 to 18 October 2027
Certificate version date: 20 October 2022

Scope of certificate

Certificate type: Multisite (Common ownership) Chain of Custody

Certificate registration code

NC-COC-055978

FSC License Code

FSC-C017601

Specific information regarding products and sites is listed in the appendix(es) of this certificate.
The validity and exact scope covered by this certificate shall always be verified at www.info.fsc.org.

FSC™ accredited certification body (FSC™ A000535) | The mark of responsible forestry | www.ic.fsc.org

This certificate itself does not constitute evidence that particular product supplied by the certificate holder is FSC™ certified [or FSC Controlled Wood]. Products offered, shipped or sold by the certificate holder can only be considered covered by the scope of this certificate when the required FSC claim is clearly stated on invoices and shipping documents. The physical printed certificate remains the property of Preferred by Nature OÜ and shall be returned upon request.

Annex A: Scope of Faber-Castell AG FSC™ Chain of Custody Certificate NC-COC-055978

(The list below shows products handled by the network of Participating Sites)

Product Type	Trade Name	Output FSC Claims
P2.1	Copying paper	FSC Mix; FSC Recycled
P5.1	Cardboard packaging	FSC Mix; FSC Recycled
P5.2	Corrugated paper	FSC Mix; FSC Recycled
P7.1	Notebooks	FSC Mix; FSC Recycled
P7.2	Pads	FSC Mix; FSC Recycled
P7.8	Adhesive labels	FSC Mix; FSC Recycled
P8.1	Books	FSC Mix; FSC Recycled
P8.7	Toys and games made with paper	FSC Mix; FSC Recycled
W16.2	Brooms and Brushed	FSC 100%
W17.2	Pencils	FSC 100%

CUSTOMER INFORMATION ON ROHS AND POP

The products listed do not fall under the ROHS regulation 2011/65/EU with (EU) 2015/863 but do comply with the limit values for contaminants specified therein. Furthermore, the products do not contain persistent organic pollutants (POP) according to regulation (EU) 2019/1021.

CUSTOMER INFORMATION ON PFAS

The products listed not contain PFAS (Per- and Polyfluoroalkyl Substances).

CUSTOMER INFORMATION ON REACH

Faber-Castell is applying and importing chemical raw material for manufacturing of high quality writing and drawing instruments. Since June 2007 the new EU regulation on chemicals REACH* is supervising the use and marketing of chemical substances within the EU. Henceforth all substances have to be registered by the European Chemicals Agency ECHA with regard to the specific use of the substance.

Faber-Castell as user of chemical material strongly sticks to this responsibility. In January 2008 a REACH project team has been founded, which, in coordination with our suppliers, focuses on the identification and assessment of all chemical substances used. In addition, Faber-Castell also organizes the registration if required.

Registration of Substances

On June 1st, 2008 the pre-registration phase started and from January 1st, 2009 onwards the main registration process commenced, which expired on 31.05.2018 with the last registration deadline. These deadlines were strictly observed by Faber-Castell. We thus ensure the further smooth marketing of our products.

After completion of the registration phase of substances on 31.05.2018 we confirm: All products

distributed in Europe by Faber-Castell are only containing substances which, as far as required, have been registered.

Information on Substances in Articles

The new European directive on chemicals REACH regulates in title IV the information flow in the supply chain. Faber-Castell is part of this supply chain and certainly will meet the information requirements towards our downstream users and clients. Article 33 notifies that substances included in annex XIV, according to article 57 SVHC** substances, may only amount to a maximum of 0.1 mass percentage in products or parts of them. In case the concentration of SVHC substances exceeds this limit the downstream user / client has to be informed. The list of substances in annex XIV is open and certainly will be extended in the next few years. In preparation of the inclusion of these substances in annex XIV by the ECHA, for the time being the candidate list comprises a limited number of substances and substance groups.

(Link: http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp)

We hereby declare that we as downstream user / formulator require of all suppliers to certify that in accordance with the current candidate list no SVHC substances exceeding 0.1 mass percentage in substances and products and parts thereof are contained. Random checks of the SVHC substances relevant for the corresponding component will be made.

Restriction of Substances

Annex XVII of REACH restricts on the manufacture, placing on the market and use of certain dangerous substances, preparations and articles. All products produced and placed on the market by Faber-Castell meet these requirements.

Should there arise any queries please do not hesitate to contact us.

Kind regards,

Dr. Tobias Häuser
Head of REACH
